

EHTEL Symposium

Sundhed.dk and EHDS

28 November 2022

sundhed.dk

PATIENTS ACCESS

- **Are we ready for article 3?**
- Natural persons shall have the right to access their personal electronic health data processed in the context of primary use of electronic health data, immediately, free of charge and in an easily readable, consolidated and accessible form
- Natural persons shall have the right to receive an electronic copy, in the European electronic health record exchange format referred to in Article 6, of at least their electronic health data in the priority categories referred to in Article 5.

The Danish health care sector and core factors

- Universal, free and equal access
- 40 years of registration and data collection
- National health registers and databases
- Unique and reliable health data from “cradle to grave”
- Unique personal identifier, digital signature & secure login to public services

Culture of trust

Danes

- are used to data collection and registration
- widely trust the public sector and the public sectors handling of their data
- have experienced the benefit of digitalization – empowerment and easier every day life
- expect good, public self-service solutions - transparency and access to own data

Strategic ambitions for the portal and the app

Vision

Sundhed.dk is a user centered health universe creating value and coherence for both health professionals and citizens and support the empowerment of the citizens.

Sundhed.dk in brief

Citizens – access to personal data and information

Citizens log-in to the closed area

From 2019 to 2021

5,2 downloads of the app: MinSundhed

Easy access to patient data

Behandlingstilbud og centre

Health care professionals have easy access

The screenshot displays a medical software interface for a patient named Nancy Berggren. The interface includes a menu bar, a sidebar with navigation options, and a main content area with a table of medical events. A red circle highlights a 'Sundhed.dk' logo in the sidebar, and another red circle highlights a 'MIBAlert' icon in the top right of the main content area. A red banner with white text is overlaid on the right side of the interface.

The IT-infrastructure

Step-by-step approach for development

sundhed.dk is

- a result of a step-by-step approach
- not launched as a 'big bang'
- an integration platform
- not 'locked in' with one private it-supplier only

Are we ready?

- Natural persons shall have the right to access their personal electronic health data processed in the context of primary use of electronic health data, immediately, free of charge and in an easily readable, consolidated and accessible form –

Yes – you can print all information today in a PDF

- Natural persons shall have the right to receive an electronic copy, in the European electronic health record exchange format referred to in Article 6, of at least their electronic health data in the priority categories referred to in Article 5.

It can be done technical easy

Thank you for your time!
